

Annual Report 2018-2019

Haiti South site: Jérémie, Haiti

Our Haiti South site consists of five sub-sites. Several school canteens receive support through our nutrition program. In schools that do not have a canteen, families receive kits of food to prepare at home. Our staff work with nurses who deliver training to families on disease prevention (typhoid, malaria, HIV/AIDS), hygiene and balanced nutrition.

Education

Goals

1. To help children and parents better understand the school payment process.
2. To help parents pay school fees and provide learning material for their children.
3. To meet with children for their career counseling, which sometimes seems overlooked
4. To meet with parents who do not want to spend money for the needs of the child.

Achievements

1. In terms of education, many of our children have made great progress.
2. We have met with struggling students and advised those who have had to repeat grades to take extra lessons at home, and have met with their parents to explain this process.

Health & hygiene

Goals

1. To continue to support people facing medical issues.
2. To help people in need find a solution to their often deplorable situation of health.

Achievements

1. Thanks to critical needs donations, we were able to cover the medical expenses for four children in dire need of medical treatment.
2. We helped those who couldn't afford care fill their medical prescriptions.

Nutrition

Goals

1. To continue to support schools that are part of our sponsorship program
2. To ensure that food is accessible to all of our children.
3. To continue oversight of children's meals, the menu and the frequency they receive food.
4. To allow our schools to have school gardens so that they can grow vegetables to feed children nutrient-rich meals.

Achievements

1. The nutrition program makes children and parents happy.
2. Children are nourished and able to stay awake throughout their classes.
3. School leaders are also very happy to have benefited from this program as it helps their institution to be frequented by local residents.
4. We visited the canteens once a quarter to supervise the menu and the number of children who eat at the canteen.

Family

Goals

1. Continue to work with other groups to put them on the same level with Prévilé and Roseaux groups.
2. Framing the committees of each group to include chapel chalice in each group so that we can create a dynamic prayer within each group.

Achievements

1. 55 parent groups are organized through our five sub sites, they are grouped into small groups and coordination for each sub site.
2. Family Circles meet once a month. They've managed to create a group savings account where members can borrow funds for small business set ups and emergencies.

Family funding

Goals

1. Continue running our family funding efficiently.

Achievements

1. Our DFF system works well. Each time a parent picks up his bank book, we ask them to submit a budget to have access to his bank book. Although, the budget is not yet well understood by parents, we continue to explain the process and to properly follow the process of drafting the budget, we demand the transparency of those they write in their budget.
